Investigating Space Through Modeling Derek Miller,2019-12-15 Long before astronauts ventured into space, scientists and philosophers used models to develop theories about Earth and what lies beyond it. This experimentation guide shows students how they too can create models to forge a deep understanding of topics like the scale of the solar system, how eclipses occur, and the cyclic patterns that govern life on our planet. Through the creation of models, readers learn how to develop and test hypotheses and how to represent their findings visually in graphs and charts.

Artifact Collective: an attempt to consciousness Nick Stokes,2019-04-02 ARTIFACT COLLECTIVE is an attempt to create consciousness in a book. You begin. You are trapped in the dark under a great weight. You cannot move. His, her, their, our, your, and my consciousnesses take shape through speculation into your condition. Are you buried alive? Why? Are you alive? Are you accelerating through space in a you-shaped windowless vessel? What is your shape? Are you a flicker of light on the horizon of a black hole? Where is she? Has he lost all he loved? Speculation via thought becomes reality. Including historical, scientific, and found materials and images, ARTIFACT COLLECTIVE is a fictional and non-fictional exploration of quantum theory, cosmology, possible futures, intellectual property, interwoven presents, the commons, the individual and collective mind, and the self. ARTIFACT COLLECTIVE is a corpus. It is an artifact. ARTIFACT COLLECTIVE is licensed under a

Short Cuts Alexander Humez,Nicholas Humez,Rob Flynn,2010-08-03 Our everyday lives are inevitably touched--and immeasurably enriched--by an extraordinary variety of miniature forms of verbal communication, from classified ads to street signs, and from yesterday's graffito to tomorrow's headline. Celebrating our long history of compact speech, Short Cuts offers a well-researched and vibrantly written account of this unsung corner of the linguistic world, inspiring a new appreciation of the wondrously varied forms of our briefest exchanges. Alexander Humez, Nicholas Humez, and Rob Flynn shed light here on an ever-growing field of minimalist genres, ranging from the bank robbery note to the billboard, from the curse hurled from a car window (or the Senate floor) to the suicide note, and from the ghost-word to the ring tone. The book is divided into ten thematic sections, as varied as In the Dictionary (discussing such topics as Sniglets, Mountweazels, and the Wiktionary), In and Out of Trouble (error messages, weasel words, the pre-nup), and On the Lam (ransom notes, wanted posters, portraits parl?s). The authors look at the comic strip's maladicta balloon and the dinner-interrupter's robocalls, the advice column and the obit, and the many ways your personal appearance tells us who you are, from the message on your gimme cap to the tattoo with your S.O.'s name on your ankle. Uncovering the elegance, the humor, and the unspoken implications in these fleeting communications, this book provides a satisfying thoroughness and an abundance of connections that unravel how the oath became the swearword and the calling card salver turned into the Facebook wall. For readers who love language and enjoy rummaging through the cultural baggage that comes with it, Short Cuts gathers an engaging sampler of the most delightful and cogent--and above all brief--forms of contemporary English.

    Sublimer Aspects Natasha Duquette,2007 How did eighteenth-century aesthetics come to so strongly influence not only the theology but also the practice of Christianity by the late nineteenth century? The twelve essays in Sublimer Aspects seek to answer this question by examining interfaces between literature, aesthetics, and theology from 1715-1885. In doing so, they consider the theological import of canonical writersâ such as Daniel Defoe, Alexander Pope, Voltaire, and Immanuel Kantâ as well as writers whose work is now experiencing a revival, namely women writersâ including Mary Anne Schimmelpenninck, Anne Brontë, Frances Ridley Havergal, Elizabeth Stuart Phelps, and Adelaide Procter. The volume concludes with essays on the possibility for hope within the Christian Romanticism of Samuel Taylor Coleridge, Thomas Carlyle and George MacDonald, whose texts continue to cultivate a sense of wonder in new generations. Divided into five sections, essays by Ben Faber, Katherine Quinsey, Melora G. Vandersluis, Richard J. Lane, Natasha Duquette, Susan R. Bauman, Krista Lysack, Sandra Hagan, Roxanne Harde, Cheri Larsen Hoeckley, Franceen Neufeld, and Monika Hilder address mutually interdependent connections between providence and grace, sublimity and ethics, gender and hymnody, literature and activism, and finally, aesthetics and hope.
