Waiting for Messiah Rainbow Chang, 2021-03-11 The pandemic of the 2020 Easter season has been seen as transformative for human life. However, the transformation that modern science will bring into human life is even more fearfully exciting in the big picture of human history. The pandemic triggered a deep urgency in the author to question the Easter story in light of frontier science. When death is near us, we often think more about life and truth and are filled with the urge to experience them both. In the Christian story, God was born, died, and was resurrected on earth; ascended into

heaven from earth; and will bring the kingdom of God on earth. What will be the continuation of our Easter story if the earth is no longer our home? What's the real meaning of the resurrection of the dead in his return if modern science has achieved everlasting life before his return? In this book, the questioning of truth is blended with a deep faith in the truth. It shows that waiting for the Messiah is not a stilled life putting the future on pause but a dance of life. For the characters of this book, the dance of life in lockdown in a small town did not block their awareness of hunger, violence, and injustice happening in the world or limit their vision for the kingdom of God. That could be said about millions of lives at the time of Easter 2020, as millions of people have given their lives for others. Remembering the Easter of 2020 is remembering you.

Secrets of Seduction: The Powerful Influence of Behavioral Psychology Applied to Seduction and Persuasion Paulo Roberto de Sá Araújo, 2021-10-02 Recent surveys reveal that about 84% of men feel insecure in flirting situations: whether due to lack of courage, fear of judgment, feeling intimidated by the beauty of women, not knowing what to say or even because of an ingrained shyness. This is because these men do not understand the psychological aspects and mental triggers that are behind any human interaction. In my teens, I was very shy and embarrassed to talk to women who piqued my interest, until I discovered that seduction and conquest skills could be learned and I could really become a skilled seducer if I learned the right techniques. After studying human behavior a lot and even graduating from courses on influence and persuasion, I became an expert in communication and finally understood how some men conquer women so easily, as if they were true magnets and attracted them to themselves with very little effort. Thinking about helping other men to overcome these difficulties I wrote the book "Secrets of Seduction", where I teach all the powerful techniques of influence, persuasion, NLP and seduction that really changed my life. I literally reveal all the secrets you've never been told about relating to women. In it, I teach practical strategies from basic to advanced to overcome any mental block, gain self-confidence, interpret signals of interest and, just by looking, know exactly who are the women who are interested in you. I also approach the best communication techniques with an almost hypnotic power to create connections, which helped me not only in the seduction aspect but also in several areas of my life. I hope this book adds the same value to you as it did to me.

What Sky Tells Us Gülden Bulut,2022-07-27 The starry sky is fascinating to everyone. Mankind has always been influenced by the sky; stories of the earth are, in a sense, stories of the sky. This book will cover a wide range of topics that approach the unity of the earth and the sky from an astronomical standpoint, from the history of astronomy to practical celestial observation, from observation tools to casting a natal chart. Now, let's start getting to know the sky, which has guided humanity for millions of years, and turn our faces up to the sky.

Design: Mind the Gap scott trent,2015-10-29 PLEASE NOTE THE FIRST 70 REVIEWS WERE PAID FOR BY THE AUTHOR AS AN EXPERIMENT TO TEST REPUTATION MGMT., AND DRIVING TRAFFIC TO THE BOOK/SUBJECT. This is Design Thinking! Similar to a man with no country, Design with a capital D has no home; yet, design is a part of many, many disciplines. Big D design is a process between disciplines. It is a practice embraced by all fields; but, founded in its own process. It is the space between thoughts, and the actions that dictate the next act. Design thinking is a perspective, an approach, an art, and a life style. It dictates how the world is viewed and provides a tool to address issues beyond the current comprehension. To understand design thinking, you must navigate the space between disciplines, ideas and conventions. To practice Design Thinking you must mind the gap. This book explores Design, Design Thinking, creativity and innovation.
